RE: Request for Information Pursuant to Section 114 of the Clean Air Act

Dear Mr. Miloscia:

This is a follow-up to the May 17, 2007 discussion of the Notice of Violation/Finding of Violation issued April 11, 2007, to Buzzi Unicem USA-Festus, Missouri (Buzzi) by the U.S. Environmental Protection Agency (EPA).

Pursuant to the authority of Section 114(a) of the Clean Air Act (the Act), 42 U.S.C. § 7414(a), EPA may require any person who owns or operates any emission source to provide such other information as the Administrator may reasonably require concerning compliance with the Clean Air Act (the Act). Buzzi is required to provide within ninety (90) days of receipt of this request a written report including, but not limited to, the following:

1. The results of any cause analysis undertaken to ascertain the sources of excess emissions cited in the NOV/FOV and recommendations on how to remedy the excess emissions. The report should include but not be limited to the following areas of concern: frequency of start up and shut down of the facility, refractory failures, maintenance of the facility, carbon dioxide and oxygen monitors, power supply interruptions, optimizing the carbon content of the raw mix, optimizing the drafting system, and whether the frequency of the maintenance schedule is sufficient.
2. The results of any corrective actions implemented to address the excess emissions.
3. The results of any analysis for the excess emissions cited in the NOV/FOV that certain excess emissions may be considered exempt excess emissions and why.
